PRODUCT NAME(S) IMPACTED: Tru64/DIGITAL UNIX

PRODUCT FAMILY(IES):

Storage
Systems
Networks
PC
Software X
Other (specify)

PRODUCT NUMBERS: Tru64/DIGITAL UNIX V4.0F

PROBLEM STATEMENT:

The wrong version of the PRINTED Tru64 UNIX V4.0F Release Notes manual was shipped with V4.0F. Please NOTE that the version on the documentation CD-ROM media and on our documentation Web site are both correct. That Web site is available at this location:

http://www.unix.digital.com/faqs/publications/pub_page/pubs_page.html

SOLUTION:

To ensure that valued customers and internal users who receive media kits or documentation update kits have the correct printed version of the V4.0F Release Notes, we've reprinted the document with the correct content.

The corrected version has been reshipped to everyone who received the

incorrect version, either in a media kit or a documentation update kit. The differences between the two versions are minor and not obvious, except for the part number. The correct version has a part number of AA-QTLMF-TE. The original (incorrect) version has a part number of AA-QTLME-TE.

When you receive the corrected manual, please replace the old AA-QTLME-TE with the new AA-QTLMF-TE, and discard the old manual.

The corrected manual will be delivered in all future new media kits and as the component of documentation kits.

We apologize for any inconvenience this may cause.
